INSTITUTIONAL AI RESILIENCE ASSESSMENT

INSTITUTIONAL AI RESILIENCE ASSESSMENT

A whole-institution reading of readiness for an AI-shaped future.

Responses and evidence remain the institution's own. Results are preliminary until independently verified and are never shared or benchmarked without your instruction.

D03.Q02: Faculty Readiness & Matrix Mapping

Multi-dimensional matrix mapping where capabilities are intended, developed, demonstrated, and assessed.

Matrix Columns	Intended, Developed, Demonstrated, Assessed
Programme Scope	Cross-Faculty Representative Sample
Autosave	Persisted Automatically

The screenshot shows the ARUI Institutional AI Resilience Assessment interface. The browser address bar displays <https://arui.org/assessment/D03?p=Q02>. The page header includes "Apex National University / Assessment", a "LIVE" status, the user "Sahil Khan - Institution Admin", and a "Sign out" button.

The left sidebar, titled "AI Resilient University INSTITUTIONAL AI RESILIENCE ASSESSMENT", shows a "WORKSPACE" with the following items: Overview, Institution Profile, Orientation, Institutional Pulse, Assessment (selected), Evidence, and Preliminary results. The "INSTITUTION" section at the bottom of the sidebar identifies "Apex National University" and "Assessment cycle 2026 Baseline".

The main content area is titled "D03 · HUMAN CAPABILITY Strategic Area A02 · Exploring 1 of 1". It features a progress bar with 10 strategic areas (A01 to A10), where A02 is the current focus. A "Saved" icon is visible in the top right of the main area.

The question being asked is: "For representative programmes, where is each selected capability intended, developed, demonstrated and assessed?". Below the question, a dropdown menu "Why are we asking?" is expanded, showing six radio button options:

- Formally established and active across departments
- Emerging initiative in selected faculties/schools (selected)
- Under active committee review or formulation
- Informally addressed / ad-hoc academic practice
- Not currently initiated or planned
- Other

A note states: "Response options for this question are provisional and will be confirmed by the methodology team." Below this, a green checkmark indicates "Response recorded". There is an "Update response" button.

At the bottom of the question area, there are two buttons: "Not sure / need to check" and "Does not apply to our institution".

The "Evidence that would strengthen this response:" section includes two text input fields:

- Official committee minutes, council mandate, or institutional strategy document
- Operational guidelines or faculty approved assessment framework

 An "Open evidence workspace" link is located to the right of these fields.

At the bottom of the form, there are navigation buttons: "Previous" and "Continue".

D03.Q03: Authentic Capability Demonstration & Work Samples

Evidence submission linking representative student work samples to claimed graduate competencies.

RESPONSE REVIEW

Institutional responses

Responses are inputs for assessor interpretation. Nothing here scores automatically; the metrics listed are those each response may inform.

ScreeningD01D02D03

Q01	Strategic Area A01 How is AI currently positioned in institutional decision-making?	ANSWERED
Q02	Strategic Area A02 Which institutional decisions have actually changed in the last 18 months because of AI or anticipated AI-driven changes?	ANSWERED
Q03	Strategic Area A03 Which assumptions underlying the current institutional model could be materially affected by AI in the next 3–5 years?	ANSWERED
Q04	Strategic Area A05 When a significant external change is detected, what normally happens from detection to institutional action?	ANSWERED
Q05	Strategic Area A06 How many AI pilots were conducted, evaluated, scaled or stopped in the last 24 months?	ANSWERED
Q06	Strategic Area A08 A major AI development threatens a major programme within three years. What would the institution do first, who initiates it, and through what mechanism?	NOT SURE
Q01	Strategic Area A01 A new AI system processing student information is proposed. Who can authorise institutional deployment?	ANSWERED
Q02	Strategic Area A02 What steps actually occur before a consequential AI system is approved?	ANSWERED
Q03	Strategic Area A03 Which AI governance policies are approved, implemented and reviewed?	ANSWERED

DRAFT

Document · Whole institution · 2025-01 – 2026-12

Institutional documentation submitted to support domain maturity verification.

SUPPORTS D01-I01

EVIDENCE LEVEL

E2 · Operational evidence

AUTHENTICITY CHECK

PASSED

LINKED METRICS

D01-I01 D02-I01

Assessor finding. Document verified: meets institutional authenticity standards and corroborates stated capability levels.

Academic Council Minutes — Authentic Assessment Redesign Mandate

SUBMITTED

Document · Whole institution · 2025-01 – 2026-12

Mandate requiring undergraduate modules to incorporate oral defense, process evaluation, and AI-resilient assessment rubrics.

Assessor Final Calibration & Certified Scoring Sign-Off

Auditor finalizes domain maturity grades, inputs executive certification remarks, and issues the certified assessment score.

Certification	Certified Maturity Grade Issued
Sign-Off	Formal Assessor Authorization

METRIC SCORING

Maturity · Implementation · Outcome

Each construct is recorded separately on the 0–5 scale. Respondent answers do not produce these values mechanically; assessors interpret responses and evidence against the domain anchors. Aggregation happens in a score run.

D01D02D03

METRIC	M	I	O	E	STATUS	FLA

SCORE RUNS

Preliminary score runs and execution log

A run asks the engine to aggregate what assessors have recorded, under the pinned methodology version. Runs are traceable; nothing is computed in this interface.
