REPORT INFORMATION

About this report

This report presents the Preliminary ECRI Assessment for the institution named below. It covers the eleven dimensions assessed in the comprehensive scope and should be read with the limitations set out at the end.

Institution	Demonstration University
Assessment ID	asm-demo-2026
Report ID	RPT-ASM-DEMO-2026-0001
Report kind	Preliminary
Assessment period	2026-01-12 to 2026-02-27
Submitted	2026-02-27
Assessment status	Preliminary
Methodology version	ECRI v6.0 · P0-5 (pre-pilot)
Score run	run-1
Template version	report-template 0.1 (sample)
Contributors	Institution Admin: Office of the Registrar; Contributor: Dean, Academic Affairs; Contributor: Director, Career Services & Industry Relations
Assessors	Assessor A (lead); Assessor B (second)
Confidentiality	Confidential — prepared for the institution's leadership. Not a certification, ranking or public benchmark.

How to read this report

Current maturity is the level the institution demonstrates today on a 0–5 scale, scored by assessors against domain-specific anchors. Required maturity is the level the institution's own context reasonably calls for; it is derived from mandate, employer exposure, disciplinary consequence and trajectory, and never changes a capability score. Transformation distance is required minus current; it is a diagnostic gap, not a penalty. Evidence confidence describes how well positions are supported and is reported separately from capability. Cross-domain findings are diagnostic signals only.

Assessment coverage: 11 of 11 dimensions. Comprehensive institutional evaluation across all 132 canonical metrics. Preliminary results are not a certification.

Contents

- 1. Executive summary
- 2. Institutional context and profile
- 3. Assessment scope and coverage
- 4. Overall ECRI position
- 5. Dimension results — D01 through D11
- 6. Cross-domain dependencies and contradictions
- 7. Validation, evidence and verification status
- 8. Assessor observations and priority areas
- 9. Recommended actions — 90 days, 12 months, longer term
- 10. Methodology note, limitations and reassessment

1 · EXECUTIVE SUMMARY

Robust employer co-design and placement; systematic work-integrated learning and alumni tracking lag behind.

Across the eleven assessed dimensions, Demonstration University articulates graduate employability as a central institutional priority with senior leadership ownership. Employer advisory councils and curriculum alignment are strong in professional disciplines. The largest distance between current and required maturity lies in Work-Integrated Learning (WIL) standardization across non-STEM programs and longitudinal career mobility tracking.

Dimension positions at a glance

DOMAIN / DIMENSION	CURRENT	REQUIRED	DISTANCE	SCORE	STATUS
D01 · Employer Demand Intelligence	3 · Structured	4 · Integrated	+1	78 / 100	DEVELOPING
D02 · Employability Capability Framework	3 · Structured	4 · Integrated	+1	72 / 100	DEVELOPING
D03 · Industry-Aligned Curriculum	4 · Integrated	4 · Integrated	0	81 / 100	STRONG
D04 · Experiential & Practice Learning (WIL)	2 · Emerging	4 · Integrated	+2	67 / 100	PRIORITY
D05 · Career Development Infrastructure	3 · Structured	4 · Integrated	+1	76 / 100	DEVELOPING

Key strengths

FINDING	DOMAINS	EVIDENCE
Articulated strategic employer partnerships Over 350+ active corporate hiring partners with embedded syllabus co-teaching in engineering and business faculties.	D01, D03	Evidenced
Mandatory AI and digital foundation courses Universal Python and AI productivity toolkits mandated across first-year undergraduate curricula.	D07	Evidenced
Dedicated career services infrastructure Centralized Career Development Center operates regular campus recruitment drives and alumni career panels.	D05, D09	Evidenced

Priority gaps

FINDING	DOMAINS	EVIDENCE
Work-integrated learning is uneven and uncredited outside STEM Internships and field practicums in humanities and pure sciences carry no academic credits.	D04	Evidenced
Absence of verified graduate capability portfolios No universal digital capstone repository exists to signal validated student capabilities directly to recruiters.	D08	Partially evidenced
Longitudinal graduate career tracking is informal Institutional tracking ceases after 6 months; 3-to-5 year alumni career trajectory data is not systematically captured.	D10, D11	Unvalidated

The institution as it described itself

Context shapes what the assessment explores, how deeply, what evidence is proportionate and what maturity is reasonable to expect. It never gives an institution a score advantage or disadvantage.

Identity		Resources and engagement	
Institution name	Demonstration University	Annual expenditure band	Band C (sample)
Institution type	Comprehensive University	Industry engagement	Structured partnerships in 4 faculties
Governance type	State public university	Career services model	Centralized + faculty embedded
Year established	1962	Incubation ecosystem	Active technology incubator (24 startups)
Location	Urban (Mysuru, Karnataka)	Student catchment	State / National (72% domestic)
Total Students	18,400	Internship placement rate	68% (6-month metric)
Faculty Count	1,120	Employer advisory boards	Active across 8 faculties
Active programmes	142 (61 UG, 68 PG, 13 PhD)	Disciplinary consequence	High

Profile completeness: complete. A complete profile precedes scoring. Expenditure and funding band boundaries are calibrated to institutional peer groups.

3 · ASSESSMENT SCOPE AND COVERAGE

Assessment coverage: 11 of 11 dimensions

The Employability & Career Readiness Intelligence (ECRI) instrument assesses institutional readiness across eleven dimensions and 132 canonical metrics. All 11 dimensions are in active scope in this report.

CODE	DIMENSION	METRICS	STATUS IN THIS REPORT
D01	Employer Demand Intelligence	12	Assessed
D02	Employability Capability Framework	12	Assessed
D03	Industry-Aligned Curriculum	12	Assessed
D04	Experiential & Practice-Based Learning	12	Assessed
D05	Career Development Infrastructure	12	Assessed
D06	Professional & Human Capabilities	12	Assessed
D07	Digital & AI-Era Work Readiness	12	Assessed
D08	Portfolio & Capability Signalling	12	Assessed
D09	Employer Engagement & Recruitment Ecosystem	12	Assessed
D10	Employment Outcome Quality	12	Assessed
D11	Career Adaptability & Lifelong Readiness	12	Assessed

4 · OVERALL ECRI POSITION

Where the institution stands, dimension by dimension

Domain positions are shown individually. Transformation distance is the gap between the maturity the institution's context requires and the maturity currently demonstrated; it is diagnostic and is not a penalty.

		0 Absent	1 Reactive	2 Emerging	3 Structured	4 Integrated	5 Adaptive	
D01	Employer Demand Intelligence							Distance +1
D02	Capability Framework							Distance +1
D03	Industry-Aligned Curriculum							Target Met
D04	Experiential Learning (WIL)							Distance +2

CONFIDENCE BAND

High Confidence

comprehensive data validated

Reading transformation distance

A distance of +2 means the institution's context calls for a maturity two levels above the level it currently demonstrates. Distance directs attention and sequencing; it does not lower any score.

Metrics: 12 in domain · 12 applicable · 12 scored · 0 not applicable · 0 incomplete · 1 review flag(s). Evidence levels: E0 1 · E1 2 · E2 5 · E3 4 · E4 0

Capability positions

CAPABILITY	SCORE	STATUS	EVIDENCE
Labor Market Trend Telemetry	82 / 100	STRONG	E3
Employer Advisory Council Cadence	76 / 100	DEVELOPING	E3
Curricular Demand Forecasting	68 / 100	PRIORITY	E2
Regional Recruitment Tracking	84 / 100	STRONG	E3
Emerging Skill Synthesis Rate	74 / 100	DEVELOPING	E2

Capability labels are the domain's derived outputs. Individual metric identities are held in the assessor record and are not printed in the institution copy.

Strengths

FINDING	DOMAINS	EVIDENCE
Quarterly employer advisory councils in active operation Engineering and management faculties run structured quarterly industry reviews.	D01	Evidenced
Labor market telemetry integration Real-time corporate job vacancy data is reviewed annually in academic council.	D01	Evidenced

Gaps

FINDING	DOMAINS	EVIDENCE
Humanities programmes lack structured demand forecasting Liberal arts syllabi are updated without direct employer demand telemetry.	D01	Evidenced
Unsynchronized multi-campus placement data Branch campuses do not feed placement trends into central planning.	D01	Partially evidenced

Claims awaiting evidence

CLAIM	EVIDENCE THAT WOULD VALIDATE IT
Advisory council recommendations directly modified syllabi	Board of Studies minutes showing approved changes from advisory reviews.
Systematic skill forecasting operates annually for all departments	Annual foresight report or curriculum revision memo.

Missing evidence does not automatically reduce capability. Where the methodology requires evidence for a particular claim, that claim may remain unvalidated until sufficient evidence is available.

Institutional data supplied

REF	ITEM	VALUE	STATE
D01-D01	Active employer advisory councils	8	Provided
D01-D02	Programmes reviewed against market demand	48	Provided
D01-D03	Programmes modified based on employer telemetry	14	Provided
D01-D04	Active industry partner network	350+	Provided

Not sure, not provided and not applicable are distinct states. None of them is treated as zero.

Assessor observation

Employer engagement language is mature and visible in professional schools. The institution should extend structured industry sensing to humanities and foundational sciences.

5.2 · DOMAIN RESULT

Metrics: 12 in domain · 12 applicable · 12 scored · 0 not applicable · 0 incomplete · 2 review flag(s). Evidence levels: E0 3 · E1 3 · E2 4 · E3 2 · E4 0

Capability positions

CAPABILITY	SCORE	STATUS	EVIDENCE
Credit-Bearing Internship Structure	58 / 100	PRIORITY	E1
Workplace Mentor Rubric Alignment	62 / 100	PRIORITY	E2
Clinical / Industry Practicum Reach	74 / 100	DEVELOPING	E3
Cross-Faculty WIL Standardization	52 / 100	PRIORITY	E1
WIL Assessment & Evidence Portfolios	66 / 100	PRIORITY	E2

Capability labels are the domain's derived outputs. Individual metric identities are held in the assessor record and are not printed in the institution copy.

Strengths

FINDING	DOMAINS	EVIDENCE
Engineering mandatory 12-week industrial training 100% of engineering undergraduates complete accredited industrial internships.	D04	Evidenced
Hospital and clinical practice in health sciences High-density structured clinical rotations operate in nursing and allied health.	D04	Evidenced

Gaps

FINDING	DOMAINS	EVIDENCE
Zero academic credits for non-STEM internships Arts, humanities, and social science students receive no credits for verified work experience.	D04	Evidenced
Absence of standardized workplace evaluation rubrics Supervisors submit variable qualitative letters rather than calibrated competency evaluations.	D04	Partially evidenced

Claims awaiting evidence

CLAIM	EVIDENCE THAT WOULD VALIDATE IT
Standardized WIL framework exists for all 142 programmes	Academic senate policy document establishing credit weighting for all faculties.
100% of student internship supervisors are formally trained	Workplace supervisor orientation handbook and attendance logs.

Missing evidence does not automatically reduce capability. Where the methodology requires evidence for a particular claim, that claim may remain unvalidated until sufficient evidence is available.

Institutional data supplied

REF	ITEM	VALUE	STATE
D04-D01	Students enrolled in accredited internships	4,200	Provided
D04-D02	Programmes with mandatory credit-bearing WIL	42	Provided
D04-D03	Active corporate internship host agreements	180	Provided
D04-D04	Non-STEM programmes with structured WIL	4	Provided

Not sure, not provided and not applicable are distinct states. None of them is treated as zero.

Assessor observation

Work-integrated learning is the single largest transformation gap in the institution. Standardizing credit-bearing internships across all faculties will deliver significant employability uplift.

5.3 · DOMAIN RESULT

coverage 85%

Metrics: 12 in domain · 12 applicable · 12 scored · 0 not applicable · 0 incomplete · 0 review flag(s). Evidence levels: E0 0 · E1 1 · E2 5 · E3 6 · E4 0

Capability positions

CAPABILITY	SCORE	STATUS	EVIDENCE
Core AI & Digital Literacy Foundation	86 / 100	STRONG	E3
Discipline-Specific Digital Toolkits	80 / 100	STRONG	E3
Human-AI Collaboration Pedagogy	76 / 100	DEVELOPING	E2
Data Analytics & Synthesis in Degree Programs	82 / 100	STRONG	E3
Digital Work Environment Fluency	72 / 100	DEVELOPING	E2

Capability labels are the domain's derived outputs. Individual metric identities are held in the assessor record and are not printed in the institution copy.

Strengths

FINDING	DOMAINS	EVIDENCE
Campus-wide Python and AI foundation mandated 100% of first-year undergraduate students complete computational foundations.	D07	Evidenced
Industry software tooling embedded in core curricula CAD, Bloomberg Terminal, and Tableau suites integrated into course assignments.	D07	Evidenced

Gaps

FINDING	DOMAINS	EVIDENCE
Ethical and generative AI verification pedagogy is emerging Guidelines exist but student coursework verification rubrics are not universally enforced.	D07	Partially evidenced

Claims awaiting evidence

CLAIM	EVIDENCE THAT WOULD VALIDATE IT
All faculty members completed AI pedagogical training	HR training attendance records for the 2025-2026 academic year.

Missing evidence does not automatically reduce capability. Where the methodology requires evidence for a particular claim, that claim may remain unvalidated until sufficient evidence is available.

Institutional data supplied

REF	ITEM	VALUE	STATE
D07-D01	Undergraduates completing AI foundation	100%	Provided
D07-D02	Industry digital tool licenses active	18	Provided
D07-D03	Faculty participating in AI pedagogy workshops	620	Provided

Not sure, not provided and not applicable are distinct states. None of them is treated as zero.

Assessor observation

Digital work-readiness is an institutional highlight. The campus-wide computing foundation provides a strong platform for advanced multidisciplinary capabilities.

6 · CROSS-DOMAIN DEPENDENCIES AND CONTRADICTIONS

How the assessed domains relate to one another

Cross-domain intelligence tests whether linked capabilities support or contradict each other. These findings prioritise verification and leadership attention. They have no direct score effect.

Rules computed within the assessed scope: CD01 (D01 !' D04), CD02 (D03 !' D08), CD03 (D07 !' D10).

Contradictions

RULE	LINK	INTERPRETATION	RECOMMENDED VERIFICATION
CD01 HIGH	D01 Employer Demand !' D04 Experiential Learning	The institution reports strong employer advisory engagement, yet students in non-STEM faculties have no structured internship pathway.	Sample employer meeting records and check internship credit allocations.
CD02 MEDIUM	D07 Digital Readiness !' D08 Portfolio Signalling	High digital capabilities reported, but students do not maintain verified digital capstone repositories.	Inspect capstone submission systems across engineering and arts faculties.

Institutional coherence diagnostics

DIAGNOSTIC	STATE	NOTE
Strategy-to-Curriculum Coherence	Verified	Employer sensing directly influences 48 programme syllabi.
Curriculum-to-Practice Coherence	Attention Required	Significant lag in non-STEM experiential learning.
Practice-to-Signalling Coherence	Attention Required	Capstone verification not systematically recorded.

Score effect: none

A contradiction or dependency gap never adjusts a metric, domain or overall position. It tells assessors where to look and leadership where coherence is at risk.

How well the positions are supported

Evidence strengthens confidence in your position. Missing evidence does not automatically reduce capability. Where the methodology requires evidence for a particular claim, that claim may remain unvalidated until sufficient evidence is available.

Validation flags & calibration

DOMAIN	FLAG	COUNT	NOTE
D04	WIL SCOPE REVIEW	2	High self-declaration score on uncredited non-STEM internships.
D08	PORTFOLIO AUDIT	1	Digital capstone repository requires live sample inspection.
D10	LONGITUDINAL CORROBORATION1		Salary and progression statistics sourced from single alumni portal.

Assessor Calibration

8 metrics were double-scored blind; 7 agreed within one level and 1 went to lead assessor adjudication. Assessor overrides recorded: 0.

8 · ASSESSOR OBSERVATIONS AND PRIORITY AREAS

What the assessors want leadership to notice

Priorities and actions are assessor-authored professional recommendations informed by the assessed positions. They are not generated by the scoring engine and carry no score effect.

Whole assessment — The institution engaged openly with deep administrative support. The integration between corporate recruiters and engineering/business faculties is genuinely commendable and exemplary.

Assessor A · Lead Evaluator · 2026-03-03

D04 — The absence of accredited, credit-bearing work-integrated learning in humanities and basic sciences is the single most urgent structural vulnerability in the institution's employability profile.

Assessor A · 2026-03-03

D10 & D11 — Establishing 3-to-5 year longitudinal graduate career tracking will unlock higher confidence bands and enable verified ROI reporting to prospective students and parents.

Assessor B · Second Assessor · 2026-03-04

Priority areas for executive intervention

#	AREA	DOMAIN	WHY IT IS A PRIORITY
1	Non-STEM Work-Integrated Learning	D04	Largest transformation distance (+2 levels); affects 55% of undergraduates.
2	Verified Capstone Portfolio System	D08	Essential to translate demonstrated coursework skills into recruiter signalling.
3	Longitudinal Alumni Career Tracking	D10, D11	Needed to substantiate long-term career resilience and institutional ROI.

9 · RECOMMENDED ACTIONS

A sequenced direction of travel

Actions are grouped by horizon. Each is linked to the gap it addresses so that progress can be read back against the assessment at reassessment.

NEXT 90 DAYS

ACTION	DOMAINS	LINKED GAP	SUGGESTED OWNER
Enact credit-bearing internship framework in Academic Council	D04	No credits for non-STEM internships	Dean, Academic Affairs
Deploy digital capstone repository guidelines for all faculties	D08	Lack of capability signalling	Director, IT / Deans
Standardize employer advisory council terms of reference	D01	Unsynchronized advisory inputs	Registrar / Academic Council

WITHIN 12 MONTHS

ACTION	DOMAINS	LINKED GAP	SUGGESTED OWNER
Mandate 12-week verified internships across all undergraduate programs	D04	Uneven practice reach	Faculty Deans
Launch unified employer feedback rubric for workplace supervisors	D04, D09	Variable qualitative reviews	Career Center Director
Institute 1-year and 3-year alumni career outcome tracking	D10, D11	Informal graduate tracking	Alumni Relations Cell

LONGER-TERM DIRECTION

ACTION	DOMAINS	LINKED GAP	SUGGESTED OWNER
Establish Cross-Faculty Employability & Lifelong Mobility Academy	D11	Discontinuous career support	Executive Board
Complete annual ECRI re-assessment to audit longitudinal progression	D01–D11	Longitudinal baseline	Vice-Chancellor

About the ECRI methodology · ECRI v6.0 (pre-pilot)

The Employability & Career Readiness Intelligence (ECRI) framework assesses institutional work-readiness across eleven dimensions and 132 canonical metrics. Each metric is scored by trained assessors against domain-specific maturity anchors on the **Maturity Scale**: maturity (how developed the capability is), implementation depth (how far it operates in practice) and outcome

LEVEL	LABEL	MEANING
0	Absent	No recognisable capability.
1	Reactive	Capability appears only in response to events.
2	Emerging	Capability is forming in parts of the institution.
3	Structured	Capability is defined, owned and repeatable.
4	Integrated	Capability operates across the institution and connects to other capabilities.
5	Adaptive	Capability learns and changes ahead of events.

Limitations and provisional status

- This is a Preliminary ECRI Assessment Report based on the canonical demonstration dataset. Full institutional certification requires independent on-site audit corroboration.
- Evidence levels E0–E4 express strength of support; claims at Level 3 or above require verified documentary corroboration.
- Assessment fees never influence score, ranking, verification status, or institutional recognition.

Reassessment window & triggers

Recommended window: Full annual reassessment across all 11 dimensions in 12–18 months, or immediately upon adoption of a campus-wide credit-bearing internship framework.

Next steps for institutional leadership

1. Academic Council review of the D04 Work-Integrated Learning transformation gap and internship credit policy.
2. Registrar establishes standardized terms of reference for faculty employer advisory councils.
3. Career Development Center initiates 3-to-5 year longitudinal alumni career telemetry tracking.
4. Schedule formal verification score run following submission of outstanding evidence packets.

This document is an Executive ECRI Assessment Report generated under methodology version ECRI v6.0. It is confidential and prepared solely for institutional leadership.
