

# AI RESILIENT UNIVERSITY INDEX

Institutional AI Resilience Assessment Report

Methodology: v4.0 · PRELIMINARY

## Apex National University

Cycle: 2026 Baseline · Generated: 9/11/2026

### Institutional AI Resilience Position

Overall Preliminary Index: **75%**

Current Maturity Level: **Level 4 (Emerging / Structured)**

Required Maturity (P0-4 Context): **Level 4 (Advanced)**

### 1. Executive Summary

Apex National University demonstrates a forward-looking executive posture with emerging institutional structures for AI resilience. While strategic translation and leadership foresight (D01) are advanced, operational maturity across student assessment security (D07) and faculty workforce scaling (D05) represent critical transformation priorities.

#### Immediate Transformation Priorities:

- Establish an Institutional AI Ethics & Academic Integrity Taskforce.
- Formulate mandatory AI curriculum integration guidelines across all undergraduate programmes.

## 2. Domain Assessment Results (D01–D11)

Evaluation across 11 core institutional resilience domains based on assessor M/I/O scoring and evidence review.

| Code | Domain Pillar                                              | Current | Required | Distance | Score   |
|------|------------------------------------------------------------|---------|----------|----------|---------|
| D01  | Institutional Strategy, Foresight & AI Direction           | L4      | L3       | -1       | 75%     |
| D02  | Governance, Responsible AI & Institutional Risk            | —       | L3       | —        | Pending |
| D03  | Human Capability, Cognitive Readiness & AI-Ready Education | —       | L3       | —        | Pending |
| D04  | Curriculum & Programme Future Resilience                   | —       | L3       | —        | Pending |
| D05  | Faculty Capability & Academic Workforce Transformation     | —       | L3       | —        | Pending |
| D06  | Student Capability, Agency & Future Readiness              | —       | L3       | —        | Pending |
| D07  | Learning, Assessment & Evidence of Capability              | —       | L3       | —        | Pending |
| D08  | Digital, Data & Institutional Intelligence                 | —       | L3       | —        | Pending |
| D09  | Employability, Industry & Economic Relevance               | —       | L3       | —        | Pending |
| D10  | Research, Innovation & Knowledge Creation                  | —       | L3       | —        | Pending |
| D11  | Institutional Adaptability & AI Resilience                 | —       | L3       | —        | Pending |

## 3. Cross-Domain Diagnostics & Contradiction Signals (P0-5)

**Diagnostic Signal [CD01]: OBSERVATION**

Strategy and Governance foundations aligned with institutional risk envelope.

## 4. Assessor Observations & Recommendations

- **Executive AI Strategy:**  
Strong strategic awareness at the Vice-Chancellor and Senate level with active cross-campus dialogue.
- **Assessment Modernization Need:**  
Traditional invigilated exams require transition to authentic capability portfolios and oral defenses.
